Tools required

Installation instructions

1. Drill the appropriate drill size hole into drywall / wallboard, brick or concrete.
2. Insert the TripleGrip™ into the hole.
 - 2.1. Tap in flush to the wall.
3. Insert the screw through the object you need to affix and into the TripleGrip™ up to the point where the head screw touches the wall to allow the TripleGrip™ to open behind the wall.
4. Continue to screw until a firm resistance.
